Aqua9 Waters

Product Presentation

Aquanine lemonades aren't made to fit in. They're made to stand out.

Aquanine DNA traces back to traditional recipes first crafted between the 16th and 20th centuries and remixed for today with pure cane sugar, 100% natural syrups, and real fruit extracts. Each bottle is a bold statement, wrapped in striking packaging designed in collaboration with emerging artists. From the first glance to the last sip, Aquanine delivers an unapologetically vivid experience where flavor and design collide.

Why we do it?

Because life's too short for boring drinks. We fuse time-honored flavors with a modern edge — real cane sugar for real energy, explosive authentic taste for instant uplift. No gimmicks — just straight-up refreshment that demands attention and leaves a lasting impression.

TARHUN THRILL

TARRAGON and RASPBERRY

To craft our original take on classic tarhun, we started with the finest tarragon extract — sweet, herbal, and crisp as hell. But it needed a kick. So we dropped in ripe raspberry — juicy, bold, and just tart enough to keep you hooked. The result? Tarhun Thrill — a refreshing blast of sweet and tart that keeps your taste buds on edge

CITRUS CRUSH

LEMON, GINGER & GRAPEFRUIT

Want to taste confidence? It starts with bright, fresh lemon — lively and full of energy, like stepping into the spotlight. Then comes ginger — warm and spicy, adding a bold kick with no hesitation. Finally, grapefruit brings a smooth, bittersweet finish that ties everything together perfectly. Citrus Crush doesn't whisper — it makes a statement. One sip, and you feel refreshed, energized, and ready to take on anything.

Natural Ingredients

No weird stuff. Just pure cane sugar, real fruit extracts, and 100% natural syrups. Because flavor should come from nature, not a lab. If it's not real, it's not in our bottle.

Community

aqua-nine is more than a drink — it's a community-driven brand. We partner with artists, athletes, and influencers while supporting local creators to build real connections. This approach drives strong consumer loyalty and organic growth. When aqua-nine grows, our network grows with it, creating lasting value and momentum.

Empowerment

Be bold. Be loud. Be exactly who you are. aqua-nine stands for confidence without compromise—whether that means leading, creating, or simply choosing what makes you feel alive.

Sustainability

We care about what goes into the world as much as what goes into our bottles. That means thoughtful sourcing, low-impact packaging, and a constant push to do better—for the planet and for the people on it.
